

Gatherings on the Island Brač, Croatia 2012

The Place

The Croatian island Brač is the focus of a heart centre that channels cosmic love, and distributes the Earth's vital energy across a wide region. It is a wonderful place to recharge your batteries and experience impulses for transformation.

The Idea

The gatherings unite geomancy, personal and collective development, and help to deepen our connection with the subtle levels of existence around us, ourselves, the community and each other. The underlying intention is to find and live our visions and fully step into our role in the ongoing process of global transformation: living the truth of our hearts, holding awareness of our divine spark, balancing male and female, and walking our highest path.

Having said all this, we also take time to be and enjoy: the sea, the beautiful landscape, to cook and eat together, to enjoy a laugh and to relax.

Discovering Sacred Brač

Walking Holiday
3rd - 8th May 2012

In this walking holiday, we will investigate the wealth of Brač's sacred places - hidden glagolitic hermitages, mystic caves, places of ancient slavonic gods and goddesses, cosmic planes con-

necting with other star systems, points of manifestation, remote groves and a mysterious location in the sea.

From our base at apartments Nada, we will head off to different parts of the island for our walks. The workshop contribution is 360-200 Euro including accommodation in shared rooms and food. Travel additional.

Discovering New Worlds Seminar at Harmony Centar Island Pasman near Zadar, Croatia

13. - 20. Juli 2012

The cosmos has a fascinating variety of life and a rich tapestry unseen worlds. At this time of rapid environmental and political changes, we are invited to communicate consciously with the subtle worlds of existence, and to discover their wisdom. This will allow us to walk our divine path and to fully step into our role as co-creators on earth.

Exploring sites in the vicinity, we will practise and deepen techniques to communicate with the earth's vital energies, star systems, angels, spirit guides and ancient cultures. For further information please visit www.harmony.hr oder ring ++385(0)98 615 020.

Experiencing Oneness

Carving Brač Stone
20th-27th September 2012

Brač is the home of beautiful white limestone, and this time we will design and carve cosmogrammes to resonate with the experience of oneness within ourselves and our surroundings.

High light vibrations are increasingly manifesting in the landscape, and we will connect with impulses from former civilisations like Lemuria or Atlantis, cosmic beings such as dolphins and whales, new elementals and star systems who support us in expanding our consciousness.

You might choose to design a cosmogramme for your own home to take with you, or for a location on Brač.

Workshop contribution is 460-260 Euros including accommodation in shared rooms and food. Travel additional.

Radiating Unconditional Love

Meditation Gathering 20th-27th December 2012

For these pivotal days of global transmutation I would like to invite you to a four-day meditation to establish a crystal light channel, which radiates unconditional love and forms part of a world-wide network. Through this we will balance ourselves and support the cosmic shift. The two following days are to enjoy our co-creation with lightness and ease.

Workshop contribution of 280-60 Euro according to income, plus food and travel. Accommodation to be confirmed.

Sabine Engelhardt

The call to the island Brač came to me a few years ago in meditation, and I was led to the

heart centre there. My role is to communicate with the subtle levels of the landscape and to support the co-creative process, in which we advance in finding and living our visions. I am a Bioarchitect and Geomancer, and have been living in Croatia for two years. Apart from the holidays below I can also offer geomantic sailing trips for groups of 3-8 in Croatia. Please contact me if you are interested.

Wolfgang Alexander Tiller

15 years ago I was introduced to Marko Pogacnik's Geomancy work and this has become part of my approach to art to this day. Having studied fine art, sculpture and dance, I teach seminars in Geomancy, personal development and cosmogramme design. I live in Austria and as of this year, I also spend some time in Germany close to Cologne. I have taken part in the Geopunctur projects in Prague, Ljubljana, Klagenfurt and Fuerteventura, and have also developed and implemented my own lithopuncture projects. Being experienced in this kind of work, I am looking forward to contributing to the workshop in Croatia, and bringing along my tools.

Gea Viva

Urša Vidic, Alda Gerchi and I have set up the charity Gea Viva - co-creating synergy living on Brač, to create a meeting place that connects the spiritual understanding of universal connectedness with the practical tasks (permaculture, eco building and eco arts) and island regeneration. We are currently looking for land on Brač.

Brač. We will finish at approximately 11:00 on the leaving day to catch the ferry, which leaves Supetar at 12:30. Split can be reached by train, coach and plane. The airport on Brač operates during the summer.

Workshop languages are English and German, Croatian on request. Single rooms are available.

Cost And Registration

We will share the cost for travel from Split. Normally we will cook together. Occasionally we eat at a restaurant.

To register or for more information, please contact Sabine Engelhardt, +385 99 749 3711, sabine@leosgea.hr.
